API Farayad

Cloud LMS

www.farayad.co

www.farayad.org

update at : 1403/06/07

APIs : CourseUserTracking, CourseUserEnrollments, MyCourses

پیش نیاز

مقادیری که باید در ابتدا از سیستم دریافت نمایید :

{{wstoken}} این مقدار به شما داده می‌شود که همه درخواست‌ها با این مقدار باید ارسال شوند

{{Authorization}} این مقدار توسط jwt login (از سند User Login) با یوزر ادمینی بدست می‌آید. مقدار token به همراه bearer در header : Authorization ارسال شود.

CourseUserTracking

گرفتن وضعیت فعالیت کاربر از فعالیت‌های یک دوره.

URL : https://api.farayad.org/course/user/track/status

method : POST

Parameters

- course_id : int, required
- user_id : int, required

CURL

curl --location --request POST 'https://api.farayad.org/course/user/track/status' \
--header 'Authorization: bearer {{Authorization}}' \
--form 'course_id=<course_id>' \
--form 'user_id=<user_id>' \
--form 'wstoken={{wstoken}}'

Result

action: ,
  message: ,
  result_items: {
    activities_count: ,
    pass_activities_count: ,
    activity_states: [
      {
        activity_id: ,
        pass_status:
      }, …
    ]
  },
  quest_token: ,
  has_redirect:

CourseUserEnrollments

گرفتن کاربران یک درس :

URL : https://api.farayad.org/course/user/enrollments

method : POST

Parameters

- course_id : int, required
- page : int

CURL

```
curl --location --request POST 'https://api.farayad.org/course/user/enrollments' \
--header 'Authorization: bearer {{Authorization}}' \
--form 'course_id=<course_id>' \
--form 'wstoken={{wstoken}}' \
--form 'page=1'
```

Result Structure

```
action: ,
message: ,
result_items: {
    current_page: 1,
    data: [
      {
        user_id:
        deleted_at:
      }, …
    ],
    first_page_url: ,
    from: ,
    last_page: ,
    last_page_url: ,
    next_page_url: ,
    path: ,
    per_page: ,
    prev_page_url: ,
    to: ,
    total:
},
quest_token: ,
has_redirect:
```

MyCourses

<div dir="rtl">

گرفتن درس‌های کاربر :

</div>

URL : https://api.farayad.org/course/user

method : GET

CURL

curl --location --request GET 'https://api.farayad.org/course/user?wstoken={{wstoken}}' \
--header 'Authorization: bearer {{Authorization}}'
